

FINDING FAMILY TREASURE

Finding Family Treasure is about connections — to families, to the past, and to others.

This book is about a diverse group of fifth graders who research their family histories. They come to understand who the people are who make up the melting pot that is America.

It's a story about families, history, and diversity, and how we're all connected in so many ways — and that we are more alike than we are different. A very timely message for today!

“When young people discover their own ancestral history, it instills in them a new respect and pride in our shared American heritage.”

—StacyMae Webb, Genetic Genealogist

Authors K. I. Knight and Jane R. Wood

Join coauthors — geneologist K. I. Knight and educator Jane R. Wood — as they show how history comes alive for students when they make personal connections to the past. Young readers will gain an appreciation for their own ancestors and will want to learn how their family contributes to America's diverse culture.
